<b>Information Station Specialists</b>	<b>1002</b>	<b>Confirmed</b>	<b>Bill Baker</b> <b>616.772.2300 x102</b>
 <h2>Information Station Specialists</h2> <p>Amateur Radio Operators in all 50 states rely on Information Station Specialists (<a href="http://www.theRADIOsource.com">www.theRADIOsource.com</a>) for the equipment and services to broadcast emergency information to vehicle radios in their communities over AM channels 530-1710 kHz. Offerings now include a 630 meter Ham radio antenna as well.</p> <p><b>The Hamvention Information Station:</b> Tune to AM 1620 as you approach Hamvention to hear a live demonstration of Information Radio technology, including daily weather, parking, travel, and traffic information, interviews, and the daily schedule, updated minute-to-minute. The "Hamvention Radio 1620" radio signal will be broadcast this year with the new HPR.0990 high efficiency/high capacity vertical antenna and groundplane that will be displayed in the yard area just west of Building 1.</p> <p><b>New 630 Meter Antenna:</b> In 2022, Information Station Specialists will be displaying the new "Lowdown" 630 meter antenna in booth 1002 in Building 1. You can read about recent 630 meter testing on our <a href="#">newsletter</a>.</p> <p><b>Read More:</b> Interested in learning more about "Information Radio"? Check out The Source newsletter. You can read the most recent issue and sign up to receive it regularly. Information Station Specialists offers portable and fixed AM radio systems purchased by city/county emergency managers and other public safety officials. Services include FCC licensing, installation, and training. For more information, email <a href="mailto:Bill Baker">Bill Baker</a>.</p>

<b>LOOP ANTENNA by I3VHF</b>	<b>3009</b>	<b>Confirmed</b>	<b>Ciro Mazzoni I3VHF</b>
 <p>The LOOP ANTENNA was designed and handmade with pride in Italy by <a href="#">Ciro I3VHF</a>, who dedicated his professional life to experimentation and testing in order to produce an antenna for radio operators who have limited space for their aerials, yet still want a quality antenna.</p> <p>The LOOP ANTENNA has small dimensions but high efficiency. Due to its narrow bandwidth, noise is significantly reduced and signals from distant sources</p>			

is practically zero and can operate from almost any place. <i>No noise - no limits!</i>
