<b>Carlson Roof Towers</b>	<b>1205</b>	<b>Confirmed</b>	<b>Jim &amp; Ron</b>

**Say Goodbye to the Climb!**

Introducing...

**The Carlson Tower Lift**

A Safer, Faster Way to Service Equipment on Light-Duty Sectional Lattice Towers

*See it working!*

**Booth 1205**

Carlson Roof Towers will officially launch an exciting new product at Hamvention: the Carlson Tower Lift - a patent-pending, precision-engineered mechanical elevator system that eliminates the need to repeatedly climb sectional lattice towers to perform needed servicing on antennas and other tower-top equipment.

The initial release, Model 25, works with ROHN® 25G and Amerite® 25 towers up to 60-feet tall, both new and retrofit.

Drop by and see the Carlson Tower Lift in operation!

We will also have one of our industry-leading roof towers in the booth.

<b>SPOOLTENNA</b>	<b>1704</b>	<b>Confirmed</b>	<b>Robert Bowser</b>
			
<p><b>SPOOLTENNA</b> offers an innovative approach to HF wire antennas to create tangle-free and frustration-free experience for portable operators.</p> <p>We launched our first product at Dayton Hamvention 2025 as the 40-10 meter End Fed Half Wave Antenna. This design showcases a spool form factor allowing the wire to wind around a larger radius and eliminating kinks or tight bends that contribute to tangling. The integrated 49:1 matching transformer eliminates the need for a tuner on 40, 20, 15, and 10 meters. Also check out SPOOLTENNA on Youtube, Facebook and Instagram!</p>
